

Perpetual Investors

Internship Sustainable Finance Product Development & Portfolio Management

Job opening

Perpetual Investors is a renowned single family office based in Munich. With significant assets under management, the office follows a sustainable, unrestricted long-term investment strategy within an institutional open architecture approach. The asset universe will include but is not limited to private equity, private debt, real estate, hedge funds, as well as liquid equity and fixed income.

We are looking for a talented and highly motivated intern at the interface of Portfolio Management and Product Development, who will support the team in defining and evaluating a new business venture in the field of Sustainable Finance.

Key Responsibilities

- Building prototype investment and portfolio analytics incl. coding of model
- Integrating data sources and testing model
- Preparing presentation material
- Supporting the senior team by taking responsibility for defined projects

Key Requirements / Skills / Experience

- Strong academic record, preferably in Mathematical Finance or similar
- First practical experience in finance, preferably asset management
- Solid analytical, conceptual, and problem-solving skills
- Ability to work independently, efficiently and results-oriented
- Strong MS Office skills and familiarity with a higher order programming language such as Python, C, R, ...
- Interest in advancing the UN Sustainable Development Goals
- Minimum 3 months, 6 months preferred

Key Benefits

- Competitive compensation package
- Highly stimulating work environment
- Exposure to cutting edge investment ideas
