

**Perpetual Investors**

## **Internship Sustainable Finance Product Development & Portfolio Management**

**Job opening**

**Perpetual Investors** is a renowned single family office based in Munich. With significant assets under management, the office follows a sustainable, unrestricted long-term investment strategy within an institutional open architecture approach. The asset universe will include but is not limited to private equity, private debt, real estate, hedge funds, as well as liquid equity and fixed income.

We are looking for a talented and highly motivated intern at the interface of Portfolio Management and Product Development, who will support the team at our start-up Effectual Capital in building out our new & unique business venture in the field of Sustainable Finance with focus on public equities.

### **Key Responsibilities**

- Enhancing prototype investment and portfolio analytics
- Implementing development code of model
- Integrating data sources and testing model
- Preparing presentation material
- Supporting the sales process of the fund and the senior team

### **Key Requirements / Skills / Experience**

- Strong academic record, preferably in quantitative finance or similar
- Solid analytical, conceptual, and problem-solving skills
- Ability to work independently, efficiently and results-oriented
- Strong MS Office skills and coding experience in Python, C, R, ...
- Interest in Sustainability
- Minimum 3 months, 6 months preferred

### **Key Benefits**

- Competitive compensation package
- Highly stimulating work environment
- Exposure to cutting edge investment ideas and business partners

### **Contact**
