

Student AI Engineer, internship or student job

About us:

At XLCloud, we're a **young start-up based in Karlsruhe**, Germany, dedicated to advancing the frontiers of technology. We're currently seeking a motivated student who is proficient in German or English to join our team as an **AI Engineer**. In this role, you will join our developers to support the creation of cutting-edge application. Join us and become part of the team. Feel free to watch all the positions available on our website:

<https://jobs.xlcloud.com/>

Role overview:

We are seeking a skilled and dedicated AI Engineer to join our innovative team. In this role, you will work on enhancing our Large Language Model (LLM)-based services and applications, develop and implement new features, and seamlessly integrate them into our codebase. Staying at the forefront of advancements in LLM technologies, you'll evaluate emerging techniques to ensure our solutions remain cutting-edge. Join us to shape the future of AI-driven applications.

Key responsibilities:

- Tune and improve our **LLM-based services and applications**
- **Develop new features and integrate them into our codebase**
- Stay updated on **LLM advancements and evaluate new techniques for improvement**

What we're looking for:

- A passion for **technology and a proactive approach to learning**
- Ability to **bring ideas and solutions** to the table
- Proficiency in **German or English**

- Student status and availability for **internship or student job**

Technologies you'll use:

- **Commercial and Open Source LLMs**
- **Go, Python**
- **Git, GitHub**

Why join us?

At XLCloud, we **respect and value** every member of our team, from our cleaning staff to our management. We believe that **creativity and fresh ideas** come from all levels of experience and age, fostering an inclusive environment where innovation thrives. We understand that the best results stem from **collaboration**, and we are committed to growing and learning together. Our customer-first culture drives us to create digital experiences that not only meet but exceed expectations.

Perks & benefits:

- Experience cutting-edge technology in our **modern workspace**, designed for innovation and collaboration.
- **Embrace flexibility** with options for home office and on-site work to suit your lifestyle.
- **Learn and grow** alongside Cloud Computing experts, gaining invaluable insights and skills.
- Our **prime location** puts you right in the heart of the city of **Karlsruhe**...
- We're just a stone's throw away from the **university campus of Karlsruhe**.

Excited to begin?

Apply now to join our team, contribute to exciting projects, and build your career in **AI technology**. We look forward to discovering how your unique skills can contribute to our mission!
