

Looking for a Master Thesis in Data Science?

Are you passionate about Data Science and eager to dive into the latest advancements in machine learning models?

Do you want to go beyond theory and bring your ideas to life?

Are you nearing the end of your studies and looking for a challenging and rewarding Master Thesis topic?

Why join us?

- **Innovative Projects:** Work on cutting-edge projects that apply the latest machine learning techniques.
- **Interdisciplinary Team:** Collaborate with a diverse team of mathematicians, physicists, computer scientists, and engineers.
- **Real-World Impact:** Contribute to the development and production of new medications in the pharma industry.
