

# Energy market and CO2-footprint-driven paper production

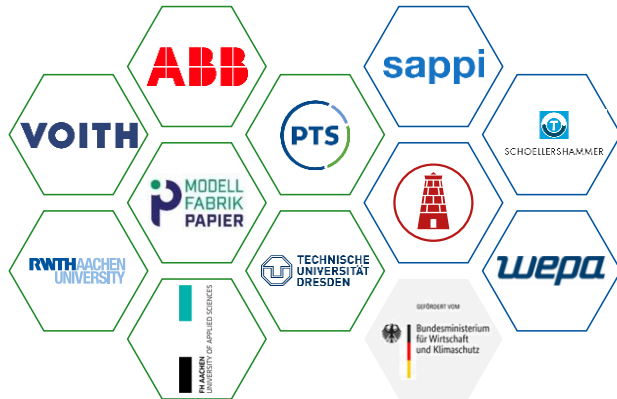

Team Project HWS 2024 together with

# FOREST Project

# F O R E S T

FRAMEWORK FOR RESOURCE, ENERGY, SUSTAINABILITY  
TREATMENT IN PAPER PRODUCTION

[www.modellfabrikpapier.de](http://www.modellfabrikpapier.de)

# Tasks

## 1. Market Research

- Business Value Addition through CO2 Footprint Information (on paper products)
- Analyze consumer behavior, market trends, and competitor strategies
- Evaluate
  - Potential premium pricing for products advertising lower CO2 footprints
  - Market trends and acceptance on digital product pass, especially wrt. sustainability information

The image shows a close-up of a financial spreadsheet with a magnifying glass and a blue pen. The spreadsheet contains columns for 'Date', 'Display', and 'Repeated Aud'. The data includes various numerical values and percentages, such as 129 000, 1 360, and 1,05%.

Date	Display	Repeated Aud
04.12.2007	3 093	2 060
05.12.2007	3 705	3 540
06.12.2007	3 593	3 423
07.12.2007	3 729	3 552
08.12.2007	3 748	3 778
09.12.2007	3 927	3 778
10.12.2007	3 836	3 778
11.12.2007	7 179	6 930
12.12.2007	6 930	12 723
13.12.2007	12 723	8 538
14.12.2007	8 538	9 404
15.12.2007	9 404	11 404
16.12.2007	11 404	16 757
17.12.2007	16 757	21 991
18.12.2007	21 991	22 299
19.12.2007	22 299	16 268
20.12.2007	16 268	9 299
21.12.2007	9 299	5 257
22.12.2007	5 257	1 360
23.12.2007	1 360	1,05%
24.12.2007	1,05%	88

# Tasks

## 2. Development of an Analytical Dashboard

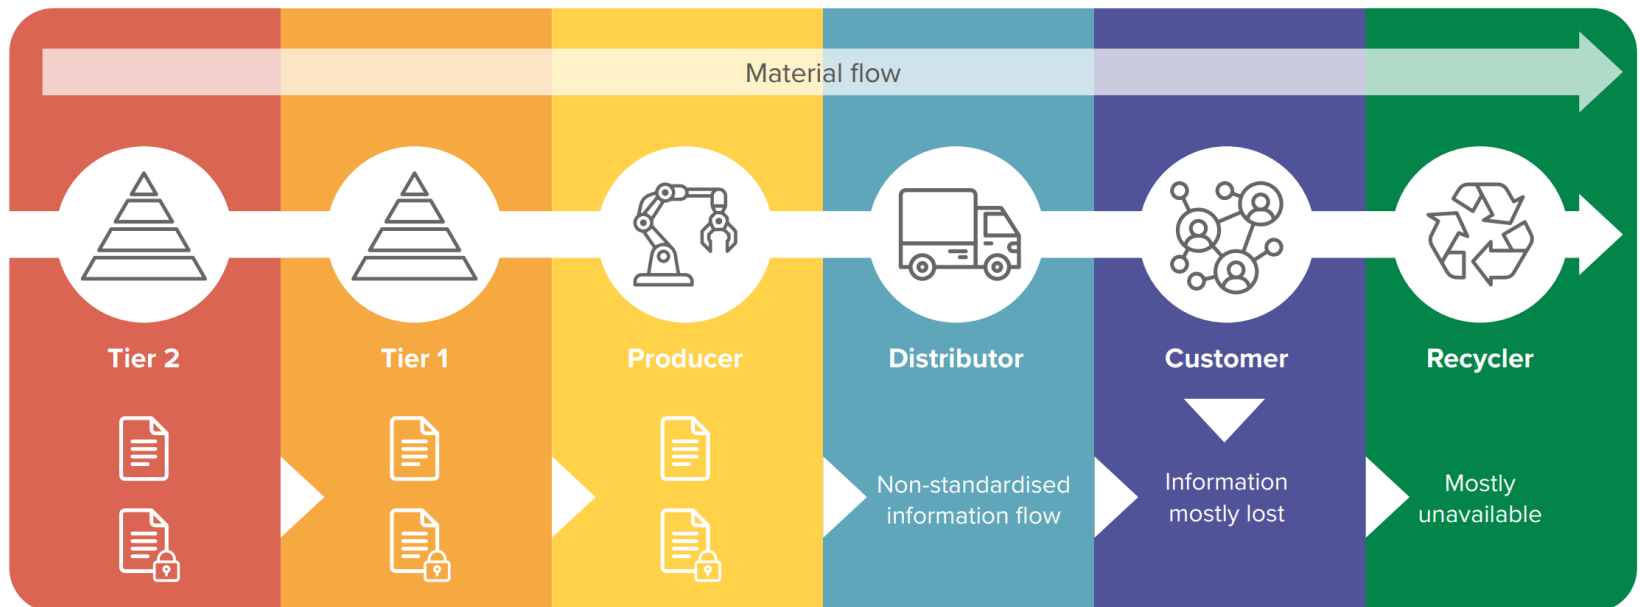

- Develop a dashboard that display real-time data
  - Energy pricing, CO2 emissions, and paper production metrics
- Provide tools to optimize the production processes
  - Based on energy costs and carbon footprint data
- Utilize data visualization techniques to present this complex data

# Tasks

## 3. Connect to the **Digital Product Pass**

- EU regulations aims to improve EU products' circularity, energy performance, etc
  - Includes a Digital Product Passport, a data carrier that provides information about products' environmental sustainability, carbon footprint, etc
  - Evaluate different implementations of this Digital Product Passport
- Investigate the interplay between the Digital Product Passport, the Dashboard, and users

# Supervisors

**Chen Song**  
Research Scientist at  
ABB Corporate Research Center  
  
Email: [chen.song@de.abb.com](mailto:chen.song@de.abb.com)

**Dr. Sven Hertling**  
Chair for Data Science  
  
E-Mail: [sven.hertling@uni-mannheim.de](mailto:sven.hertling@uni-mannheim.de)

**Jan-Christoph Schlake**  
Research Scientist at  
ABB Corporate Research Center  
  
E-Mail: [jan-christoph.schlake@de.abb.com](mailto:jan-christoph.schlake@de.abb.com)

# Organisational information

- The project runs for one semester (six months)
- 3-4 students
- Required skills
  - Attended (or attending) the following courses:
    - Data Mining (or comparable ML course)
  - Some experience with frameworks for dashboards is helpful
    - Javascript: dc.js / d3.js / chart.js / Apexcharts (React, Vue JS)
    - Grafana

# Questions?
